

Traction

Motor	Askoll brushless electric motor with permanent magnets
Power	2.200 W
Max speed	45 km/h
Max torque	130 Nm (on the wheel)
Regeneration	YES
Transmission	Pulley for toothed belt

Removable battery

Type	Lithium ions
Capacity	max. 2.090 Wh (2 packs)
Voltage	54 V
Weigh	7,6 kg per pack
Charging time	5.5 hours (80%)
Autonomy	71 km according to 168/2013 EC

Suspension

Front	Hydraulic telescopic fork
Rear	Hydraulic shock absorber

Brakes

Front	Hydraulic – disk Ø 190 mm
Rear	Drum Ø 140 mm

Tyres

Front	80 / 80 - 16"
Rear	90 / 80 - 16"

Lights

Front	Halogen
Rear	LED
Blinker	LED

Dimensions and weight

Pitch	1245 mm
Saddle height	760 mm
Weight in running order	76 kg (without batteries)
Maximum admissible weight	235 kg

Other information

Homologation Category	L1
Internal dimensions frontal basket and max weight	cm 56 x 37 (maximum admissible weight 20 kg)
